

# Management Software Solutions

Enhanced student services, alumni relations, university administration & support functions.

## Academic Calendar Generator

- Generates and updates comprehensive calendars for one or many academic years ahead, including:
  - Dates set by the university for your academic schedule
  - Exam dates
  - Private and public events dates
  - Holidays
  - Vacation periods
- Takes into consideration events linked to specific time of the year, like the last Thursday of a month or an exam scheduled on the sixth week after the semester starts

## Alumni Connection

- Helps university alumni offices or associations in systematically interacting with and supporting graduates using a web-based communication system
- Keeps alumni up-to-date with university latest news and events and connected with their fellow graduates
- Facilitates employment for new graduates and alumni
- Conducts fundraising for worthy causes

## Career Center

- Manages all services and activities of your university placement and career centers
- Assigns the facilities that make up your campus, such as: Buildings, Floors, Rooms, Laboratories, Workshops, Swimming Pools, Fields, etc.
- Facilitates communication about on-campus career fairs and job exhibitions

### Requires the following :

- Student resume (or curriculum vitae, CV)
- Details about student aspirations
- Corporate profile
- Corporate job openings

## Payroll

- Manages your university's payroll activities with our multi-country and multi-branch software
- Comprehensively covers all aspects and complies to the rules and regulations relevant to your country
- Maintains historical information
- Provides thorough reporting allowing you to tap into your information pool, analyze, and extract relevant statistics and trends

Takes into consideration such elements as :

Basic salary	Family allowance
Transportation	Deductions
Salary increases and increments	Reimbursements
Taxes	Provisions
Social security	Health
Housing	Tuition packages

## Resource Facilities Allocation

- Schedules and optimizes use of your campus facilities via a central processing unit
- Assigns the facilities that make up your campus, such as: Buildings, Floors, etc.
- Defines permissions and accessibility restrictions whereby individuals and groups reserve buildings and rooms systematically by priority, purpose, duration or other defined factors

Resource Facilities Allocation does the following:

- Process incoming requests
- Relinquish changed or fulfilled requests
- Generate charts
- Reports on facility use availability, usability, and more
